

A New Movement Music Album

More than a recording project, this album emerges from a collective of movement artists and cultural organizers committed to using music as a tool for connection, political imagination, and liberation. Each track reflects the deep relationships, histories, and shared commitments that make movement building possible.

About The Album

The artists and cultural organizers who are part of ***Songs in the Key of Resistance*** are rooted in the living tradition of movement music, lifting up songs born from struggle, survival, joy, and collective dreaming. This album was made possible through the vision, commitment, and powerful artistry of the musicians, vocalists, and cultural organizers who believe in the power of song to deepen political consciousness, strengthen community, and help transform society. Their offering continues a lineage shaped by freedom songs, labor chants, protest anthems, and spirituals - carrying forward traditions that have sustained people through generations of organizing and liberation work.

Album Resources

Singing is about all of us! Use the songs when gathering in your communities

Get the Album Song Sheet

We've created a song sheet resource that shares the history of the songs and how to use them in community.
